

Name

I am a recently retired deep sea diver looking to capitalise on my technical and administrative skills within a new career. I would prefer to remain within the marine or construction industry but am open to any new challenge.

During my career, I have been awarded several gallantry awards including service in the Gulf, have risen from being a diver to a diving supervisor and managed a diving maintenance facility as well as establishing my own business.

Education and Technical Qualifications

GCE A Levels: Physics, Maths, Chemistry and Further Maths
BSc 1st Class Honours in Nautical Science.

Diving: Royal Navy Gemini Instructor, HSE Surface Supply Diver, DOT/DTI Class iii with Command Endorsement, Rescue Diver, Advanced Nitrox Diver, Diving Supervisor.

Technical: Restricted RT Radio Operator, Advanced Boat Handler, Yacht master Offshore, Gas Blender Technician, Fire fighting, Firework Firer for Display Crew.

Health & Safety: Advanced First Aid/Life Support, EMT with enhanced skills, First Aid Instructor.

Career Experience

Royal Mail - November 2000 to April 2001

I worked for the Royal Mail in their sorting office but ultimately I decided it was not the career for me.

Own Company - 1999-2000

I owned two boats that I chartered out to various companies, undertaking roles such as:

- Standby paramedic rescue.
- Television work as a camera boat.
- Underwater surveying.
- Boat rescue and recovery.
- Corporate entertaining.

Diving Company Ltd 1992-1998 - Marine Operations Manager

As well as my role as the diving supervisor, I also managed this commercial dive site. My responsibilities included:

- Underwater structural surveys.
- Producing tenders and pricing jobs.
- Writing reports and generating invoices.
- Administration of the teaching facilities.
- Training of service personnel.
- Servicing the life saving equipment.
